GUIDELINES FOR INQUIRING ABOUT AVAILABLE SHORT TERM RENTALS

When sending an email be sure to include details of your situation. What time frame are looking at? How many bedrooms/bathrooms you are looking for? How many people will be occupying? How much Sq footage you are looking for? Budget, and amount of time your clients will need the rental for? The more information the better to find a property that is a good fit.

IF YOU ARE A BROKER/MANAGER WITH A PROPERTY RENTAL

When a broker sends an email inquiry reply only to that broker with your availability and details. If the property is not available at the time or doesn't fit the need there's no need to reply!

Helpful hint: make Short Term Rentals a "contact" in your database and include the email address! That way you'll always have support at your fingertips!
